Truely, this is a great message. I dont mean for my edits to diminsh the message - you done good! Im just appalled at them trying to drag us into deal-making. Who has time for such nonsense? It's injustice and unfair to Alaskans, too.

Cant believe they cut the coorosion suit dollars.

Nor fish and game. We'll live with what they provide us, but they must MUST justify to Alaskans! And they must put their expenses on-line along with admins!

Governor,

Tomorrow is the deadline for budget amendment to the House Finance Committee. The subcommittee reports are in and now is the typical time that the administration submits requests to the committee for reconsideration of problematic budget reductions. Right now it looks like there was approximately $100 million reduced from our amended budget. This includes the $7 million for fish and game to replace federal funds, nearly $5 million for the BP corrosion lawsuit, quite a bit out of health and social services and even the university.

I wanted to run a strategy by you. Privileged or Personal Material Redacted

Bottom line, we wont conduct politics as usual. We put forth a good budget - they wanna cut? We agree to streamline and slow the growth of govt- but they need to explain to Alaskans what they've done to our budget. Thanks!

Governor / Commissioner Von Scheben:

The Governor's Office received a letter from the Mayor of Eagle and 4 of the 6 city council members. (Attached) The letter reaffirms their support for the road improvements which includes the dust control work. The letter also says the Council has polled and found a majority of the residents of Eagle are in favor of the going ahead with the project. The news coverage on the issue seems to have greatly exaggerated the level of opposition to the project.

I believe the Denali Commission (which is funding 70-80% of the work) would like to go ahead with the project.

Commissioner. Are there further steps to gauge local support that you would like DOT to take before moving ahead?

Randy
